

Instructions for completing the MDC QSO Party Summary Sheet.

1. This is a pretty simple form to complete. In the first block enter your name, call sign, address, etc.
2. In block labeled "QSO Points" count up the total number of each QSO Type. Multiply the number of each QSO type by the QSO Value for each QSO Type and enter the number in the appropriate Sub-Total. Add each of the Sub -Total values to determine your Total QSO Points. Enter your Total QSO Points in the appropriately labeled cell in block at the bottom of the page labeled "Multipliers".
3. In the block labeled "Category" place an "X" in the cell to the left of the category in which you operated.
4. You may claim a single endorsement to any operating category by placing an "X" in the cell to the left of the endorsement type.
 - a. **YL** - You must be a female (Duh! And no, we're not going to check!) In the Club category this endorsement can only be applied for if all of the participants were YLs.
 - b. **VHF/UHF Only** – All of your contacts must have been made on the VHF and/or UHF bands.
 - c. **Youth – This is new!** To claim this endorsement you must be under the age of 18 years at the end of the contest. The purpose of this endorsement is to encourage licensed youth to participate and to introduce unlicensed youth to amateur radio. So when you hear a youthful voice calling "CQ Maryland QSO Party", take a moment to give them a contact and welcome them to the contest and amateur radio. Don't be afraid to strike up a conversation. There are two types of Youth endorsement. Place an "X" through the appropriate endorsement:
 - (1) **L** - This endorsement is for licensed youth who participate for the duration of the contest within the limits and privileges of their license and in accordance with the MDC QSO Party rules.
 - (2) **C** - This endorsement is for youth ("Under-licensed" or unlicensed) who participate in the contest using the call sign and privileges of an appropriately licensed Control Operator (as defined in Part 97 for US participants). Also, don't forget that US participants must abide by the "Third Party Rules" as defined in Part 97. Naturally, a licensed amateur who serves as a Control Operator may not submit a log for the MDC QSO Party. But you can let your kids or grandkids participate using your call sign.
5. In the block labeled "MDC County and City Checklist" draw a line through each County and City worked. Count them and enter the total in the appropriately labeled cell in block at the bottom of the page labeled "Multipliers". This is done for every contest entry.
6. **This is ONLY for participants operating in Maryland and the District of Columbia.** In the block labeled "49 States and 9 Canadian Provinces Checklist" draw a line through each State and Province that you worked. Count them and enter the total in the appropriately labeled cell at the bottom of the page labeled "Multipliers".
7. **This is ONLY for participants operating in Maryland and the District of Columbia.** List the DX countries you worked during the contest (except Canada) on the back of the Summary Sheet. Count them and enter the total in the appropriately labeled cell in block at the bottom of the page labeled "Multipliers".
8. Add your multipliers and enter total in cell labeled "Total Multipliers" and then multiply the "Total Multipliers" by the "Total QSO Points" to get the "Total Claimed Score".
9. Send the summary sheet and your log by e-mail to mdqsop@w3vpr.org or via snail mail to:

MDC QSO Party, P.O. Box 308, Davidsonville, MD 21035

10. See the examples below. Still have Questions? Send an e-mail to: MDQSOP@w3vpr.org

MDC QSO Party Summary Sheet

(Revised Feb 2011)

Name: ROBERT ROSE		Call: AA3RR	
Address: 7901 PEPPERBOY LN			
City: PASADENA		State: MD	ZIP: 21122
E-mail: AA3RR@JUNKMAIL.COM			
County or City (MDC Standard, QRP & Club Stations): ANNE ARUNDEL			

QSO Points			
Multiply QSO Quantity of each QSO Type by the QSO Value to get the Sub-Total. Add the Sub-Totals to get the Total QSO Points.			
QSO Type	QSO Quantity	QSO Value	Sub-Total
Club QSOs	10	10 Points	100
Mobile QSOs	25	5 Points	125
QRP QSOs	51	4 Points	204
